TREADLE CORDS (60")

Most recent looms have pre-drilled holes to make installation easier. For older looms, see drawing on page 11 to make them.

Remove the Leash heddle support (161-GB) and the 2 chains in front of the loom.

Fig. 3

Install the 2 Side Slide with groove pieces using 12 flat head screws #14, 2"

The vertical piece is closer to the front.

Using 2 carriage bolts (1/4" x 3"), 2 wing nuts 1/4" and 2 round head screws #12, 1"; install the 2 back loom latches

Place the "Axle of batten with metal arm" (6) in the slot of the back loom. Close and lock latches

Axle of batten with metal arm

Place Sliding Batten Swords to the Side Slides by inserting the nylon pins in the grooves of front upright pieces, short end toward the rear.

Using two 1" round head screws #12, fix the metal arms of the axle to the sliding batten swords.

Put the batten handtree and batten sley on sliding batten swords.

Insert the carriage bolts at the end of the batten handtree and sley. Push the bolts with a hammer until the round head rests on wood. The square part must enter into the wood.

Screw batten handtree firmly, using nuts. Place washer before the nut. Fix batten sley with steel washer and wing nut. Hand screw only.

To change the reed, loosen wing nuts and slide the batten sley.

PLACE HEDDLES IN SHAFT FRAMES.
See book "Warp & Weave"

Slide Shaft frames in the grooves of the
Side Slides until the pins of the back
piece fall in the slot of Side Slides.

Using 2 round head screws #12, 1 1/2" install the 2 chains to the frame at the pre-drilled holes.

Connect the springs and chains. Adjust it so the beater stays in the up position by itself.

Using 2 Carriage bolts $5/16'' \times 3\frac{3}{4}''$ (to be inserted from the bottom of the cross member), 2 washers and 2 wing nuts, affix the treadle set to the loom.
Connect treadle to cord of axle so you will have a normal shed when each treadle is pushed down.

DRAWING B GOBELIN KIT

Spring with
connecting chain
Fix at 2" from the top
with a screw #12 1"

Install treadle set at the center of the loom using carriage bolts 3 3/4", washers 5/16 and square nuts 5/16"
Use drill bit 5/16" (21/64 would be better)

For more information on how to make the warp or how to weave a tapestry, refer to the 2 books supplied with the loom.
