PARTS LIST:
1 Wood piece with pawl
1 Pawl
1 ¾" round head screw #12
2 1½" flat head screw #8

Remove the old pawls of both beams. Affix a new pawl to the bottom beam with a round-head ¾" screw #12. Make sure the pawl fits perfectly inside the teeth. Make pre-drilled holes using an 1/8" drill.

Affix the wood piece with pawl to the right post with the 2 flat head 1½" screws #8. Make pre-drilled holes using a 3/16" drill.
